Lexmark XM1145 and XM3150
Powerful. Compact.
Founded in 1991 from an IBM heritage in Lexington, Kentucky, Lexmark is focused on delivering tailored solutions to solve the unique challenges businesses face. Lexmark’s broad portfolio of high-quality products, solutions and services help improve productivity, increase efficiency and empower employees to perform at their best.

**Eco-responsible**

Printing responsibly and reducing the impact of printing on the environment is a win for your business and your budget. Our goal is to design, package and deliver innovative products and solutions that produce high-quality output with reliable performance. And at the same time, help you minimize the number of cartridges you use over the life of a printer and conserve paper and energy.

The Lexmark Cartridge Collection Program provides a variety of methods for free returns of your empty cartridges to Lexmark or our collection partners. Program availability and details vary by country.

**Environmental protection is a shared responsibility**

Through work with industry groups, Lexmark helps guide the formation of standards and guiding principles for environmental sustainability.

**Our memberships include:**

- AeA Europe
- Ecma International
- Electronics Industry Citizenship Coalition (EICC)
- DIGITALEUROPE
- European Information & Communications Technology Industry Association (EICTA)
- Information Technology Industry Council (ITI)
- Environmental Leadership Council
**Powerful performance**

The Lexmark XM1145 and XM3150 multifunction systems will help propel your business forward. Our solutions are capable, eco-friendly systems that simplify processes and help you quickly respond to changing business needs.

- Process even the most complex jobs utilizing the 800MHz dual-core processing power and up to 3GB of memory
- Get work done quickly with print and copy speeds up to 50 ppm, and produce your first page in as little as 6.5 seconds
- Produce professional output with a system that delivers consistent image quality on a diverse range of materials
- Instant warm-up fuser helps reduce energy consumption and improve time to first page

**Easy and intuitive**

The Lexmark XM1145 and XM3150 are designed for easy operation to allow you to stay focused on customer engagements instead of routine maintenance.

- The easy to navigate 4.3-inch or 7-inch touch screen provides audible feedback to make completing tasks intuitive
- Print and scan preview features help you select documents or specific pages within a document
- Extend your environmental responsibility with energy-efficient settings such as the Sleep Button and Hibernate Mode
- Manage your devices with available software

**Business productivity**

The Lexmark XM1145 and XM3150 combine exceptional multifunction performance with time-saving applications designed to make you more productive.

- Save time with fast two-sided color scanning in a single pass and quickly convert hard-copy documents into a digital format
- Advanced copy functions let you interrupt long print runs to make a quick copy and proof the first copy set before completing your copy job
- Scan to multiple destinations, including scan to network, email, FTP, fax and more
- For higher volume print needs, optional input capacity can be added to keep jobs moving
- An in-line stapler option on the XM3150 will finish the job
Propel your business forward
Our solutions are designed with your productivity in mind. The Lexmark XM1145 and XM3150 platform lets you interact with business applications directly on the device or with a server, on premise or hosted in the cloud. Reduce unnecessary printing and simplify work processes with Lexmark solutions.

Navigate to efficiency
The Lexmark color touch screen is a key access point to your device. The customizable, 4.3-inch or 7-inch interface gives you the ability to preview thumbnails of documents prior to printing, as well as change print job settings at the device. You can even view, select and print specific pages within a document directly from the touch screen. Its easy-to-use, intuitive navigation provides fast access to the functions and shortcuts.

Examples of preloaded solutions on XM1145 and XM3150 MFPs:

**Multi Send**
Capture and route a document to multiple destinations simultaneously and print a copy if you choose. Documents can be routed to email, network folders or FTP sites.

**Forms and Favorites**
Eliminate waste and inefficiencies associated with preprinted forms. Store frequently printed forms, marketing materials or other documents online, then print them on demand.

**Scan to Network Basic**
Scan a hard-copy document and route the image to one of 100 destinations.

**Customer Support**
This application provides you with an easy way to send information about your device to your authorized dealer or internal help desk.

*Additional Lexmark solutions are available through your authorized Lexmark Partner.*
Professional-quality output is only part of the story

By leveraging our industry expertise, you can generate efficiency and increase productivity across business processes to gain the power you need to move ahead. Lexmark technology solutions are tailored to your business environment—where business interactions and decisions are happening.

Empower your employees with workflow solutions that refine work processes, capture critical data and deliver information to the right place, at the right time and in the right format.

Keep sensitive information and documents secure

Lexmark builds network devices with security in mind to protect your data and documents throughout your entire workflow. Our wide range of security functions include device management, device hardening and device operation.

**Device management.** Tools include administrative access and passwords, HTTPS, SNMPv3, IP security (IPSec) and 802.1x support to remotely monitor and manage device usage.

**Device hardening.** Includes port filtering, TCP connection filtering, hard disk encryption, hard disk wiping and digitally signed firmware updates that enhance the security of the device’s network interface.

**Device operation.** Reduce vulnerabilities with authentication and authorization features, address book lookup via LDAP over SSL and device lockout for protection of user information.

Lexmark has shown its strength and leadership with respect to security.

- Forming and chairing the group that created the IEEE 2600 standards for security on hard-copy devices
- Becoming the first hard-copy device manufacturer to take a holistic approach with the National Information Assurance Partnership (NIAP) Common Criteria evaluation
1. **Intuitive color touch screen**
   Operate your device with ease through smart and intuitive navigation. Receive audible feedback when you use the touch screen.

2. **Flexible media handling**
   Add additional input capacity to handle higher volume output needs or an in-line stapler option for the XM3150 to finish the job.

3. **Automatic document feeder**
   Save time by scanning both sides of your document with robust color-scanning capabilities and ultrasonic multi-feed detection to reduce jams.

4. **Direct USB**
   The front USB port allows for convenient walk-up preview, printing and scanning and is compatible with most printable image file formats.

5. **Lexmark solutions**
   Reduce unnecessary printing and simplify work processes through solutions applications preloaded on your device. Choose additional Lexmark solutions to fit your unique workflow needs.

6. **Lexmark’s Unison™ Toner**
   Advanced toner science—powerful enough to deliver consistently outstanding image quality, with a shake-free print system.

7. **Eco-friendly features**
   Easy-to-access features like Eco-Mode to reduce paper and toner consumption, the Sleep Button and Hibernate Mode make it easy to print responsibly and help you save energy.

¹ Yield at approximately 5% print coverage. ² Recommended monthly page volume is a range of pages that helps customers evaluate Lexmark’s product offerings based on the average number of pages customers plan to print on the device each month. Lexmark recommends that the number of pages per month be within the stated range for optimum device performance, based on factors including: supplies replacement intervals, paper loading intervals, speed, and typical customer usage. ³ Maximum monthly duty cycle is defined as the maximum number of pages a device could deliver in a month using a multishift operation. This metric provides a comparison of robustness in relation to other Lexmark printers and MFPs. ⁴ Print and copy speeds measured in accordance with ISO/IEC 24734, excludes first set of test documents.
