Lexmark™

B2338dw

Lexmark B2338dw

Packed with features, the Lexmark B2338dw offers exceptional value in small-workgroup mono printing with standard two-sided output, enhanced security and built-in durability. Its multi-core processor supports output at up to 38 pages per minute*, while long-lasting printing components reduce downtime. Plus, you can connect via standard USB, gigabit ethernet or Wi-Fi.

*Print and copy speeds measured in accordance with ISO/IEC 24734 and ISO/IEC 24735 respectively (ESAT). For more information see: www.lexmark.com/ISOspeeds.

**Average standard page yield value declared in accordance with ISO/IEC 19752.

***Award based on North America and/or Western Europe data

---

Get more done

- Tackle your printing workload with the power of a 1-GHz dual-core processor, 512 MB of memory and standard Wi-Fi.
- Get up to 38-page-per-minute printing.
- Two-line LCD lets you configure, interact and monitor vital system information.
- Use media sizes from A6 to legal in the paper tray, plus smaller media and envelopes in the 100-sheet multipurpose feeder.

Ready when you are

- Long-life fuser and imaging components extend uptime.
- Unison™ Toner replacement cartridges deliver up to 3,000 pages** of high-quality printing.
- Maximum input capacity of 900 pages means fewer interruptions.
- Durable metal frame is designed for longevity.

---

Robust, built-in security

- Lexmark’s full-spectrum security architecture helps keep your information safe—on the document, the device, over the network, and everywhere in between.
- A range of embedded features harden device against attacks.
- Keypoint Intelligence - Buyers Lab honored Lexmark with a prestigious BLI PaceSetter award for Document Imaging Security***.

---

Built for planet earth

- Energy management features reduce power consumption in active use or sleep mode.
- Standard two-sided printing saves paper.
- Use of post-consumer recycled content in manufacturing saves natural resources.
- Device is rated EPEAT® Silver and ENERGY STAR® certified.
- Recycle cartridges through the award-winning Lexmark Cartridge Collection Program (LCCP).

---

1Average standard page yield value declared in accordance with ISO/IEC 19752. 2Recommended Monthly Page Volume is a range of pages that helps customers evaluate Lexmark’s product offerings based on the average number of pages customers plan to print on the device each month. Lexmark recommends that the number of pages per month be within the stated range for optimum device performance, based on factors including: supplies replacement intervals, paper loading intervals, speed, and typical customer usage. 3Maximum Monthly Duty Cycle is defined as the maximum number of pages a device could deliver in a month using a multishift operation. This metric provides a comparison of robustness in relation to other Lexmark printers and MFPs. 4Printers are sold subject to certain license/agreement conditions. See www.lexmark.com/printerlicense for details. 5Actual Yield may vary based on other factors such as device speed, paper size and feed orientation, toner coverage, tray source, percentage of black-only printing and average print job complexity. 6Print and copy speeds measured in accordance with ISO/IEC 24734 and ISO/IEC 24735 respectively (ESAT). For more information see: www.lexmark.com/ISOspeeds. 7Product functions only with replacement cartridges designed for use in a specific geographical region. See www.lexmark.com/regions for more details.
